

NOTICE ABOUT HOSPITAL FACILITY FEES

(Illinois Law – HB 1431)

Facility Fee Charges

Visits to outpatient departments owned and operated by Crawford Memorial Hospital may include a hospital facility fee charge.

What is a facility fee?

A facility fee helps cover the hospital's costs for:

- The space and equipment
- Nursing and support staff
- Supplies and technology
- Administrative and operational services

This fee is separate from the provider's charge for your medical care.

Will I receive more than one bill?

Crawford Memorial Hospital bills both the professional service and the facility fee. You will see both on the same statement.

Who do I speak to if I have further questions?

If you have additional questions about facility charges or would like a patient estimate, please contact the Hospital Business Office at 618-546-2568
